Hundreds of opportunities

If you are 17 to 34, physically fit, and can pass certain mental examinations, you may enlist right now in the U.S. Air Force. Once in the Air Force you will have an opportunity to qualify for one of the many technical or specialized training courses offered by the Air Training Command. In addition, you may take courses under the United States Armed Forces Institute and complete your high school education. Then, if you are between 201/2 and 28, you may compete for appointment to Officer Candidate School.

Special opportunities for men with two years of college or the equivalent

In addition to the opportunities offered by the Aviation Career Plan and Officer Candidate School, all unmarried male citizens between 20 and 261/2 are eligible to apply for Aviation Cadet Pilot Training (next classes start March 1 and July 1). Successful graduates of pilot training will be rated as Air Force pilots, commissioned as 2nd Lieutenants, Air Force Reserve, and assigned to flying duty with the U.S. Air Force. These officers will have an opportunity

to compete for a Regular Air Force commission. 2nd Lieutenants, unmarried, receive pay up to \$336 per month.

Special opportunities for high school graduates

If you have graduated from high school you can enlist in the U.S. Air Force for 3 years and will be accepted for an Air Force Specialized School of your choice before you enlist, under the Aviation Career Plan. If you are between 201/2 and 28 you can compete for appointment to Officer Candidate School.

Special opportunities for Veterans of any of the Armed Forces

If you held an occupational specialty in any of more than 300 skills with the Army, Navy, Air Force, Marines or Coast Guard, you may be eligible for a grade as high as Technical Sergeant in the Air Force, depending upon your skill and previous experience. Former officers of any of the Armed Forces may apply directly to Headquarters, U. S. Air Force, Washington 25, D. C., for a determination of a grade in which they may enlist.

ALL THESE OPPORTUNITIES AND GOOD PAY, TOO!

Don't overlook the money in an Air Force career. Right at the start, you make \$75 a month, plus such essentials as food, clothing, quarters, medical and dental care, provisions for retirement, and in a few short months, you may be rated Private First Class at \$80

a month. This actually gives you more net take-home pay than the average civilian who is paying for equal benefits. For full details about these exceptional opportunities, ask at your nearest U. S. Army and U. S. Air Force Recruiting Station.

The results of treatment of simple constitution, unless the trouble has begun in childhood or has lested a very long time, are usually satisfactory. The underlying cause, whether diet, neglect or abuse of laxatives, first has to be corrected. Establishing good bowel habits, by having a powel movement at a particular time of day and by yielding to the desire to defecate when it comes, is extremely important.
